

Homework - UNIT E

- Write a report about an article of your choice. A suitable article would be on one of the below topics:
 - The potential usage or method descriptions about how robots can be used in disaster sites.
 - General information about a rescue robot or a class of rescue robots.
- Your report should contain:
 - Summary of an article, including your opinions – up to three pages.
 - Name of the article and a reference to it. If your article is not online you should attach a copy of it to your report.
- Submit your write-up as a pdf document on blackboard. Include your full name at the writeup. Name the writeup as x-assignment2.pdf, where x is your first and last name.
