

Fall 2020

CISC 1003 – Move a Random Distance Lab

We will be using the VR.VEX environment for our class: <https://vr.vex.com/>

Playground: Numbered Grid Map

Challenge: use the following blocks in your program. Properly edit their values to correspond to what the robot should do.

Program settings:

- Program the robot to move to a random block number from 1 to 10 and stop.
- Place a comment before the loop explaining what the part of the code will be doing.
- You can also place a Note about the program: right click the program area and select 'Add Note'.

Information on Notes:

<https://kb.vex.com/hc/en-us/articles/360041797511-Notes-Tutorials-VR-Blocks>

Submitting Projects/HW:

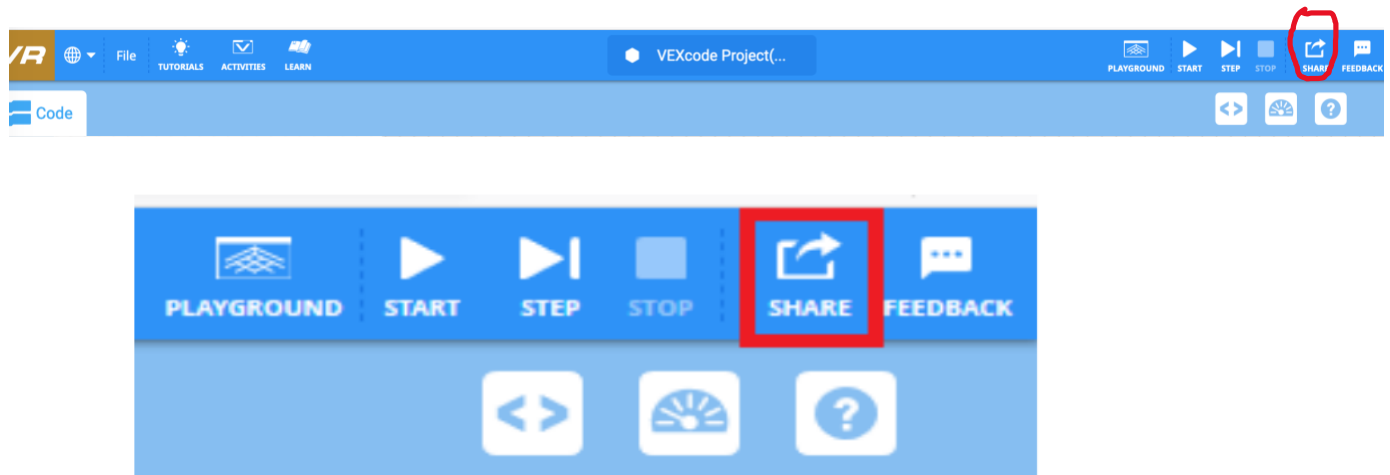

When submitting your assignments, please submit the following:

- PDF of the code
- VEXcode Project
- Screenshot of the playground after the program has stopped.

Your submission should include a zipped file, Name your document file using your Last name.Firstname and The lab name. E.g., Doe.Jane.Lab1.zip.

How to get these items:

- PDF of the code: share the code to get the PDF image of the program

- VEXcode Project: In the VEX code project go to: File, Save to Your Device

- Save a screen shot of the robot playground that showed what the robot after the program is complete:
